AID TO FINDING DATA ELEMENTS

IN THE *"MODERN"* DCPDS

10 November 1998

Instructions

The following table lists the various data elements that are in the modern DCPDS database. Use this table to help find a particular piece of data.

Each data element is followed by a label to indicate if it is a "person" or a "position" data element; this makes a difference in the way you navigate to locate that piece of data:

- For ***Person*** data, from the **Navigator** window, select ***People → Enter and Maintain***, then retrieve the record of the person for whom you are seeking using the **Find Person** window, then continue to navigate as shown on the table.
- For ***Position*** data, from the **Navigator** window, select ***Work Structures → Position → Description***, then retrieve the position record using the **Query** function, then continue to navigate as shown on the table. The (Navigation Option) in the third column means to select the type of employee from the list that displays: Army Appropriated Fund, Army Local National, or Army Nonappropriated Fund.
